

Wide Kansas Fields
The First Hoover Year
Only Ladies Smoking
Don't Sell Wheat Short
By Arthur Brisbane

NEWTON, KAN., March 13.—Fine weather here in Kansas as the train rolls through wide fields.

Farmers are plowing and tearing up the remainder of last year's cornstalks; at intervals, oil wells show where the farmer found something better than fertility.

Senator Capper's newspaper, The Daily Capital, comes aboard at Topeka with a review of President Hoover's first year.

Senator Capper describes it as "a year of blue print," meaning a year of preparation.

The Capital observes that Congress has not been strongly behind the President, the "wet press" is not sympathetic toward him, and Eastern publications with a Wall Street complex are unfriendly and would prefer using other President in the White House.

Senator Capper's editorial describes the President accurately as a man "who does not act first and reflect afterwards."

In an emergency he acts instantaneously, as in the Wall Street crash. But his method is to "look into the facts first."

The people will be well pleased, although Senator Capper does not say so, when the "Wet-Dry" question is disposed of, and the tariff with its uncertainties is out of the way.

And what the "blue print" stage is passed and the constructive era begun.

This train includes a "Younger car" decorated in bright yellow. Eight men and two women in the lounge car last night were the main attraction.

W. C. T. U. may mean about as much to the people as the "Younger car" decorated in bright yellow.

Uncle Sam buying wheat at a price above the world market and storing it helps wheat growers of other countries, although that is not his intention.

What the wheat situation will be next July, nobody can say. Wise gamblers will refrain from selling short.

Uncle Sam's wheat stockpile is the largest in the world. It is a good thing for the world.

And President Hoover will find a way to punish gamblers trading on the grain market.

Flour has reached its low price since the World War, \$6.00 a barrel, compared with \$7.50 a barrel, and \$12 a barrel, the peak price, in the war time.

Various states, through their Senators, suggest men to fill the vacancy in the Supreme Court.

Senators will learn that Mr. Hoover, knowing that a number of vacancies must inevitably occur in his first term, has done some mental selection on his account.

WEATHER
Fair and slightly cooler tonight; Saturday increasing clouds with showers and temperature diminishing; north wind, becoming variable Sunday. Details on Page 25.
Sun rises at 6:30; sets at 6:10.

Links Garrett, Mulrenin in Farm Deal

Greenfield, March 14 (AP)—Trustees of Deerfield Academy today announced a gift to the academy of \$300,000 by Edward B. Harkness of New York, donor of millions to Yale, Harvard and other colleges and institutions.

The gift is to go toward the school's endowment funds, \$250,000 to be used for teaching endowment and balance for the scholarship funds.

It is estimated that during the last five years Mr. Harkness has given approximately \$500,000 to American educational institutions, including about \$150,000 to Yale and a similar amount to Harvard for development of the housing plan.

That Oliver B. Garrett and Dudley Mulrenin together bought livestock for the Pine Grove dairy farm in Hingham was one of the points brought out today by testimony of Dr. Harry W. Kingman, shown here in Boston Evening American staff photo, at the Garrett inquiry at the State House.

Kingman said he first met them at a cattle show where they bought \$1000 worth of such stock. He was later retained as a veterinarian to make weekly visits to the farm. He estimated the herd there was worth \$8500.

Using two stolen automobiles, five men, at least one of them armed, today held up Miss Florence E. Kimball and robbed her of a \$6000 payroll in New Cross st., Somerville.

The robbery, one of the boldest in the city, occurred near the intersection of Broadway and School st. in the town of Somerville.

When she drove into New Cross st., the leading machine pulled alongside her.

Police under Sgt. Daniel O'Connell and Inspector Sargent stepped out to investigate the crash.

DR. KINGMAN SAYS HE WAS ASKED NOT TO TALK

Veterinarian Tells How He Sold Prize Cattle to Both Mulrenin and Garrett

The admission that he was "approached" and requested to withhold information was made by a witness today at the Attorney General's investigation aimed at the advice of a \$225,000 fortune declared possessed by Oliver B. Garrett, pensioned patrolman, and his wife.

Dr. Harry W. Kingman, veterinarian retained to care for prize cattle and racehorses on the Garrett's Hingham farm, contributed this startling testimony. He was the "mystery witness" whose identity had been closely guarded.

Last Saturday, Dr. Kingman said, a man named Fitzgerald, who in the past delivered sawdust at the Garrett farm, approached him and asked him not to say anything about the cattle "bought by Mulrenin."

trait picturing him as a country swindler.

MAD PRIZE CATTLE.

The Pine Grove Dairy Farm was again the center of evidence. There, according to testimony, three racehorses and a herd of 60 cattle were kept. Three dairy and farm machinery valued at \$6000 was installed.

From that point, evidence held Garrett went forth to purchase cattle, exhibit (under an entry in an other name) some of his stock and (also under the other name) win prizes with them.

According to testimony, Garrett attended a fair and bought cattle during August, 1927, the month in which he suffered the injuries upon which his pension claim, granted while he was "under fire," was based. No specific dates were given.

So, too, were elaborated the financial transactions participated in by Mrs. Garrett, pictured, below, as a nurse in moderate circumstances before her marriage to the patrolman.

TWO HOUSES COST \$22,500.

The purchase by her of two houses for \$22,500 was first made to one of these houses was in the name of her parents and was pictured as making the payments, Garrett's signature was necessary for mortgages in both houses.

Evidence of further expenditures of the Garrett Pine Grove Dairy Farm at Hingham was the first presented. Yesterday \$50,000 had been spent, estimated \$60,000 had been spent, the Garrett on the farm alone.

CHIEF DAIRY OFFICER.

Wallace L. Elliston, a salesman of farm and dairy equipment, testified that he had sold to Garrett a dairy equipment totaling \$5000 in July.

His first sale was that of a pasture for \$1000. That, he thought, occurred August, 1927, the month "Garrett received injuries on which he based his pension claim."

Garrett, he said, acted "in an advisory capacity for Mrs. Garrett" during negotiations preceding the purchase.

In August, 1928, he sold the Garrett on machines for \$1750, notes being taken.

"Did you notice the notes were signed by Florence H. Garrett, Mrs. Garrett's mother?"

When Elliston replied that he had not seen the notes, photographs purporting to be of Garrett's signature on them, were introduced by the assistant attorney-general.

Elliston said "the notes were a good one because they took good care of the notes."

RENTED HOUSE FOR \$600.

Mrs. Jessie B. Dawes of Wollaston, a realtor and wife of a Boston dentist, told of renting a user house at Nantasket to a "Mrs. Redden" last year.

The rental price of \$600 was paid in cash, she said, and the house was used to raise a calf.

Dr. J. Mulrenin, Garrett's alleged bootlegging, heretofore acquaintance.

She said she did not know who Mrs. Garrett's parents, owned the house.

Testimony regarding the cattle deal was given by Dr. Kingman, East Bridgewater veterinarian and farmer. Dr. Kingman testified at the Weymouth fair in August, 1927, and first sold him a bull calf for \$50 cash.

He had testified at previous hearings that Garrett was attending fairs and buying cattle and that he was in the investigation.

The disclosure that Dr. Kingman had been approached by "the man named Flanagan," who used to take advantage to the Garrett farm, the approach was last Saturday, the veterinarian said.

"What is Flanagan's full name?" "I don't know. He lives in Weymouth I believe."

"What did he say?" "He wanted to know if I had been approached in this matter and I told him yes. He told me not to think any more about it. I told him not to say anything but that, Flanagan buying cattle, but I told him I had to tell the truth."

Seven cattle owned by the Garrett were shown at Weymouth fair.

was entered in Dr. Kingman's name, he admitted.

Garrett agreed to pay him \$175 if he would not put his own best in competition with the Garrett cattle, the witness said. Garrett's cattle won \$125 in prizes and Garrett paid him the other \$50 to make up the deficit, he testified.

More on the cattle phase was contributed by Frank P. Day of Weymouth, who said that in 1927 he trucked six head of cattle from Brockton fair grounds to the Pine Grove Dairy Farm and for 216 service was paid by Garrett.

In January, 1928, Day said he trucked two Guernsey cows and a horse from Ma Roadville farm to Hingham and was paid by a check drawn against the Pine Grove farm.

J. Edward Callahan, Newton farmer, testified that in 1928 he sold for \$10,000 a house in Tremont station, to Mrs. Garrett, who signed the agreement, "Florence H. Redden."

"This was made out by Mrs. Everett and Martha Redden, Mrs. Garrett's parents, but the purchase made no explanation of her order, Callahan said.

Mrs. Garrett paid notes on the property by check when they were due, he declared, and the amount was due Mrs. Garrett paid the mortgage of \$1000.

He then told of obtaining a new mortgage on the property and testified the papers were signed by both Mr. and Mrs. Garrett.

On August 1, 1928, he sold Mrs. Garrett a three-family house in Payette at for \$12,000, the first payment being made with a personal check by Mrs. Garrett. Again Garrett's signature was necessary for mortgage papers and notes, it appeared.

To Switch \$500,000 Suit

Woodville, N. H., March 14.—A charge that Charles J. O'Brien, who recently resigned as treasurer of the Woodville water and light department, had embezzled more than \$5000 of the department's funds, was made at the annual meeting of voters of the Woodville fire district by R. R. Savage.

Ice Breaks in Champlain

Burlington, Vt., March 14.—A large area of open water was seen in Lake Champlain outside the Champlain Canal, situated there, not usually broken up, according to records, until the middle of April.

Malden Bird Store

Employee Suffers

Parrot Fever

The first case in Greater Boston of psittacosis or parrot disease was reported officially from Malden today, where John J. Holding, 35, of Forest st., is confined in the hospital.

Holding, employed in a Boston bird store, was taken to the hospital a few days ago, and his ailment definitely diagnosed today by Dr. A. And and other physicians.

Today

have no control of power and its distribution, although power can be used to come next to food, water and air.

The people at least might supervise sales of securities. One company issued more than sixty million shares of stock based on odds and ends of power companies. Foolish investors bought pieces of paper at a price exceeding fifteen hundred million dollars for the whole collection.

All doctors and parents will be interested in news of a "meningitis carrier," a nineteen-year-old youth, William Pheker, in the infirmary for boys at Bonville, Mo.

Five superintendents and inspectors with whom he came in contact, died of meningitis, showing how easily the deadly disease may be contracted.

DOHNEY SCORES 'ATTACK' SUIT IN BRIBE TRIAL

Washington, March 14 (AP)—The defense scored in the bribery trial of Edward L. Dohney today when Justice Hills upheld its contention that the entire explanation was entered in Superior Court today on motion of the woman's counsel, Herbert E. Holmes, of Lewiston.

Mr. Holmes said he asked for the non-suit because of having obtained information that caused him to believe his client "could not get an unprejudiced trial in Androscoggin County."

Holmes said a new suit would be filed in federal court.

Mrs. Pappasopoulos alleged in her petition that Fox attacked her in Boston several years ago.

USES THE AUTO IN LYNN CHASE

John Roush was arrested today for alleged assault on Mrs. Elizabeth Paul, his employer in a shop in Chestnut st., Lynn, and for drunkenness and operating an automobile while under the influence of liquor.

His arrest ended a mile chase by a policeman in a fire chief's auto. Mrs. Paul charged Roush arrived at the shop drunk, assaulted her when she refused him money for a dollar from the till and assaulted her again when she started to call police.

She ran into the Gilmers fire station and Roush drove away in his car. Returning, he sighted the police patrol and sped away again. Jumping into the fire chief's auto, Patrolman Cuffs gave chase and got him.

Man Charged With Theft and Slaying

Newport, R. I., March 14.—Charged with homicide and robbery, Robert D. Hayes of New York today was taken to the metropolis by three police officials.

Hayes is said to have confessed being in a party of five who robbed a store of \$500 and killed a negro. Hayes denied firing the shot. Police say he also aided participation in a chain store hold-up.

Punish Bad Check Passer

N. Johnston, Vt., Mar. 14.—Frank Davis, 43, of Lee, Mass., was sentenced in municipal court to from five to six months in the jail for passing a bad check.

He had been found guilty of passing a worthless check for \$175.

Measles in Fitchburg

Fitchburg, March 14.—The Bunk Hospital was closed to children under 15 years of age, as patients or visitors, because of an epidemic of measles in the city.

Dr. Edwin Lewis announced.

PEOPLE Who Interest You and What They Are Doing

Mrs. Converse Wins Fight To Conserve \$400,000 Fund

New York, March 14.—Mrs. Marion McCall Converse, estranged wife of Converse M. Converse, steel heir, won her fight to preserve her share of \$400,000 in her husband's trust funds.

Supreme Court Justice McCook granted her application for a receiver. Her husband is in Hollywood and has filed suit for divorce in Reno.

Robert Marjory, former Supreme Court justice, was named receiver.

He is said to have taken over the trusts willed by her husband's grandfather, Edmund C. Converse, one of the founders of the United States Steel Corporation.

Martha Norrell, Just Divorced, to Wed Garsman

White Sulphur Springs, W. Va., March 14.—Martha Norrell, Olympic champion swimmer, and Joseph W. Garsman, a Chicago social worker, contended that Alfred E. Norrell had been the country's chief nudiver under the flag in signing a bill repealing New York State's prohibition act.

An echo of the last presidential campaign was heard when Raymond Tobin, a Chicago social worker, contended that Alfred E. Norrell had been the country's chief nudiver under the flag in signing a bill repealing New York State's prohibition act.

French Liner Is Tied Up by Strike

Hayre, France, March 14 (AP)—Not only was the liner Paris held up today by a strike of seamen and presented from sailing for New York, but it was feared the "Le de France," due to leave for New York March 19, might also be delayed indefinitely.

The break between the French Line and the Seamen's Union seemed complete today. Passengers are seeking accommodations on other lines.

Vanderbilt to Sell Palm Beach Home

Palm Beach, Fla., March 14 (AP)—"Mike" Vanderbilt, as industrialist call Harold A. Vanderbilt, railroad executive and bridge engineer, is not exclusive owner of his Palm Beach home.

Police say he also aided participation in a chain store hold-up.

SAYS BOWERY IS BETTER OFF

Washington, March 14 (AP)—The House judiciary committee today recessed its prohibition hearings until next Wednesday, after hearing mission workers of New York and Philadelphia uphold the prohibition laws.

The lights of New York's "Great White Way" may shine as brightly as they did a decade ago, but there has been a big change for the better under prohibition, in the opinion of John Callahan, sometimes known as the "Bishop of the Bowery," who testified today before the committee in support of the 18th Amendment.

For 14 years, Callahan, a chaplain of the Tombs Prison, has seen much of the life of those who do not drink down Fifth ave. in fashionable attire. A quarter of a century ago, he said, the Bowery Rescue Mission has afforded opportunity for observation.

His story was that an "amazing change for the better" had taken place.

"Great good," he testified, "has been brought about in the Bowery by the dry law."

"Ten years ago there were 44 saloons in the Bowery, next year they dwindled to six. He held in pictures the language of "McGuff's Suicide Mail," the "Tub of Blood," and other saloons.

He said hundreds of men he knew ten years ago had lived "without God and without hope," but now had homes, families, nudes and radios as the result of prohibition.

An echo of the last presidential campaign was heard when Raymond Tobin, a Chicago social worker, contended that Alfred E. Norrell had been the country's chief nudiver under the flag in signing a bill repealing New York State's prohibition act.

French Liner Is Tied Up by Strike

Hayre, France, March 14 (AP)—Not only was the liner Paris held up today by a strike of seamen and presented from sailing for New York, but it was feared the "Le de France," due to leave for New York March 19, might also be delayed indefinitely.

The break between the French Line and the Seamen's Union seemed complete today. Passengers are seeking accommodations on other lines.

Vanderbilt to Sell Palm Beach Home

Palm Beach, Fla., March 14 (AP)—"Mike" Vanderbilt, as industrialist call Harold A. Vanderbilt, railroad executive and bridge engineer, is not exclusive owner of his Palm Beach home.

Police say he also aided participation in a chain store hold-up.

Judge Holds Court in Manchester Coal Office

Manchester, N. H., March 14.—The Judge W. Poore Coal Co. office in Elm st. was converted temporarily into a courtroom today, with Judge Albert W. Poore sitting.

The judge could not leave the coal office at the time and action in the case of John Charlotte of Nashua, escaped convict charged with breaking and entering, was needed.

Charlotte pleaded not guilty to breaking and entering the home of Mrs. William Poland. He was held in \$1000 for hearing.

7 Cases of Trachoma Found on Fabre Liner

Providence, March 14 (AP)—Seven cases of trachoma were discovered aboard the steamer Albatross of the Fabre line, which docked here today from Marseille.

Dr. H. G. Egbert, surgeon in charge of the United States Public Health Service here, and Dr. M. W. Houghton, assistant surgeon, said all the cases should have been detected in Marseille at the time the passengers submitted themselves for travel to this country.

Irving House Plan Fails

New York, March 14 (AP)—The National Patriotic Builders of America, organized to buy the Washington Irving house, Irving st. and 27th st., for a patriotic center, has given it up because of lack of funds.

Fire Victim

The French frigates have been 72,000 tons. It was also mentioned that Italy, while insisting upon a guarantee of security from the League powers, must build up such a navy as will look after its own guarantee itself.

The French frigates have been 72,000 tons. It was also mentioned that Italy, while insisting upon a guarantee of security from the League powers, must build up such a navy as will look after its own guarantee itself.

Macdonald Faces New Fight for Political Life in Week

London, March 14 (AP)—The government of J. Ramsay MacDonald, victor in one fight with its opposition, looked forward today to an impending more dangerous tilt a week from now when the coal miners controversy is resumed.

The Conservative motion of censure blaming the government for industrial depression and unemployment after lengthy debate by vote of 308 to 235, a majority of 75 for the government.

Hoover Sends No Orders to Naval Police Delegates

Washington, March 14 (AP)—Published reports that President Hoover had sent new instructions to the American delegates at the London naval conference were denied today.

It was added that messages were being received from London, as has been the case throughout the conference, but that no messages of any kind had been sent to delegates within the last 72 hours.

Fire Chief Philip Hamm of Everett, twice prosecuted at the Merrimack Chemical Co. fire, turned over by his command to Chief Daniel Sennott of Boston.

U.S. JAPS AGREE ON WAVES

London, March 14 (AP)—The American and Japanese naval delegations were said in well-informed quarters this afternoon to have achieved an agreement which is only dependent on confirmation from the house authorities.

Negotiations included settlement of the Japanese claim for a 70 per cent cruiser ratio. This has been the outstanding stumbling block.

Just what settlement is projected was not indicated, but well-informed persons believed it included concessions on both sides.

Observers say if this agreement has been achieved, it is not only one of the outstanding features of the conference but is of paramount importance because it would permit of a three-power agreement between the United States, Great Britain and Japan.

The impression obtained from the United States, Great Britain and Japan have been trying to rush through their agreements so as to get out of the conference as soon as possible.

The Japanese demands were the last outstanding questions to be settled among these three powers.

France Lays Plans to Build "Protection" Navy

Paris, March 14 (AP)—French official circles expressed the feeling today that a guarantee of security for France or even a complete pact has been thoroughly scrapped of the London conference.

It was added authoritatively that France, having failed to obtain a guarantee of security from the League powers, must build up such a navy as will look after its own guarantee itself.

The French frigates have been 72,000 tons. It was also mentioned that Italy, while insisting upon a guarantee of security from the League powers, must build up such a navy as will look after its own guarantee itself.

2 HARVARD MEN LED TO FINDING NEW PLANET

Chicago, March 14 (AP)—An 80-year search for a hitherto unknown planet, which has been successfully terminated.

Ever since two young mathematical astronomers with pencil and paper computed the approximate position of an unknown planet which was causing Uranus to wobble, leading to the telescopic discovery of Neptune in 1846, sky searchers have been groping in the void beyond Neptune for a still more distant member of the solar family.

Mathematical calculations, wedded to telescopic searching of the heavens, resulted in the announcement from Lowell Observatory at Flagstaff, Ariz., that the ninth and outer planet had been discovered.

The late Percival Lowell, who perhaps is best known for his extensive studies of the planet Mars, predicted mathematically the existence of this outer planet.

William M. Pickering of Harvard Observatory, in 1900, published a book on "A Search for a Planet Beyond Neptune," and two years ago announced mathematical calculations for the position of "Planet O" based on the perturbations of Uranus and Neptune. This planet he surmised was a companion to Neptune with an orbit which at certain periods was within that of Neptune. Telescopic search for this body, however, was without result.

Prof. Pickering also presented evidence of the existence of a very large planet located far beyond Neptune.

The new and nameless planet, whose actual presence in the Neptunian space was first detected last January by an astronomer-loving farmer boy from Kansas, was heralded by an announcement by Dr. V. M. Slipher of the Lowell Observatory.

A strange "blotch of light" on a photographic negative, registered by an extremely delicate instrument at the observatory, led to the discovery. The speck of light was noticed by Clyde Tombaugh, the young student of astronomy, and it led to detection of the heavenly body, bringing the known number of major planets in the near system to nine.

Yeggs Flee Garage as Autoist Arrives
Brooklyn, March 14.—The timely arrival of Joseph Yeggs, of Main st., at the North End Garage in Brooklyn, early today was responsible for two burglars being frightened away after they had moved a big safe containing \$750 from the office to the front of the garage. They had just started to burn a hole in the bottom of the safe with an acetylene torch when Yeggs arrived.

The garage was closed but Yeggs had a special key to a side door. In putting his key in, he opened the door, turned on the lights and much to his surprise saw the safe in front of him and two men escaping through a rear window.

Knew of Planet

Photo of the late Percival Lowell, brother of President Lowell of Harvard, whose research work of a half century ago is credited with assisting in the discovery of the new planet by the Lowell Observatory in Flagstaff, Ariz.

**115,000,000 AT
FILMS IN WEEK**

Washington, March 14 (AP)—The motion picture industry was described today by Carl E. Milliken of New York, and to Will Hays, as an agency working with the responsible elements "to help America set new traditions in social responsibility for the world and for future generations."

There is evidence on every side, the former governor of Maine told the better film committee of the eastern division of the Department of the American Revolution, that the quality of pictures is improving.

Milliken cited an increase in weekly attendance in motion picture theaters from 40,000,000 in 1922 to 115,000,000 today.

Calling attention to the privilege of the D. A. R. General Federation of Women's Clubs, E. M. C. A. International Catholic Alumnae and other organizations in view pictures before their distribution, he said one pioneer organization recently approved 307 out of 350 pictures; whereas ten years ago it recommended only half the pictures produced.

A car needs a home. Have you a garage for sale? Write to the Boston Evening American, Box 100, Boston, Mass. That's the way to sell it.

FILIPINOS MOB U. S. SAILORS

Manila, March 14 (AP)—Two attacks upon American sailors by Filipino mobs at Manila are being reported by authorities to have been organized by fears that the white men were plotting to poison the natives.

Stories told recently in Detroit, Mich., by James Baker, including one that he had poisoned a man in the Philippines, and recent anti-Filipino demonstrations in California, are believed to have aggravated the mobs.

Those attacked were members of the motorship Tomahawk. The attack occurred after one of the sailors gave an apple core to a native boy. Timely intervention by police prevented serious injury.

After explanations apologies were made in the American consul's name. Romero, author of the previous riot rumor, was sentenced seven jail.

Dr. Schireson of "Bow Leg" Case Fame Is Deprived of Title

Chicago, March 14 (AP)—The State has stripped the title of "doctor" from Henry J. Schireson, self-styled "greatest of plastic surgeons."

An order revoking Schireson's license culminated charges by Miss Sayde Holland that Schireson induced her to submit to an operation "to straighten her bow legs." As result of the operation, it was necessary to amputate both legs.

It was later found that Miss Holland did not have bow legs; that Schireson was not of good moral character and that twice he had served prison terms for quackery.

Among celebrities Schireson had as patients were Fannie Raker, "Teacher" Browning, and Sophie Tucker.

POINT TO GIRL AS SLAYER

Courtroom, New Castle, Pa., March 14 (INS)—Engulfed in a torrent of damning testimony, uttered by witness after witness, who point accusingly, if impetuously, and declare "there she is," Irene Schroeder today began the fifth day of her legal fight to escape the death chair for the killing of Corp. Brady Paul of the State patrol.

Eye witnesses have identified "Irene" as the woman bandit who aided in a chain store holdup at Butler, Pa., as the woman occupant of a hand car intercepted by Paul following the robbery, and who backed Paul at gunpoint in the roadside and pressed the trigger twice, at pointblank range when Paul ordered her to "drop that gun."

A car needs a home. Have you a garage for sale? Write to the Boston Evening American, Box 100, Boston, Mass. That's the way to sell it.

Philadelphia Gang Leader Is Shot Dead

Philadelphia, March 14 (INS)—The bullet-riddled body of "Pete" the "Gink," said to be a small-time racketeer, was dumped on the steps of St. Mary's hospital early today by two men who fled in an automobile.

The wounded man succumbed without revealing the names of his assailants. The victim's real name was John Scanlon, according to police. Three suspects have been arrested.

Find Bodies of Three Lost Fliers in Congo

Paris, March 14 (AP)—A Brussels dispatch to the newspaper L'Intransigeant says that the bodies of the three French airmen, Roux, Caillot and Dodeument, who left today by two men who fled in an automobile, were found beside their wrecked plane in the Belgian Congo.

The men left Madagascar on January 10 and were last seen on the 13th near Port Franqui fighting high winds.

Rote Fahne Editor Jailed for 'Treason'

Leipzig, Germany, March 14 (AP)—The federal supreme court today sentenced Richard Schultz, editor of the Communist newspaper, Rote Fahne, to 15 months' imprisonment in a fortress here for attempting to incite treason.

Two members of the Reichswehr, or National Guard, were arrested today on suspicion of furthering Fascist propaganda.

Girls Will Be Slim!**Potato Sales Drop!**

Belfast, Northern Ireland, March 14 (AP)—The desire of English women to retain a slim figure was

given as a reason for a slump in the potato demand by Sir Edward Archdale, Ulster minister of agriculture, in Parliament. He declared the young ladies of England would not eat potatoes, especially at holiday resorts.

"L" Traffic Is Delayed

Elevated train was delayed today when a northbound train was stalled for 15 minutes between Northampton st. and Dover st. stations by a broken third rail contact. The accident occurred at noon.

Serhiyevsky Breaks**Altitude Record**

Washington, March 14 (AP)—The National Aeronautics Association announced today that the Russian record of 15,857 feet.

of his standard exhibition of the triumph over the flight of Peter Serhiyevsky, setting a new world record at New York March 6, showed an altitude of 15,857 feet, as compared to the old record of 15,857 feet.

Stork Visits Ex-Film Star

New York, March 14 (AP)—The former Marjorie Daw of the films is delighted by her latest role, Mrs. Myron Selanich in the mother of a girl.

Newport Boy Admits**N. Y. Death Holdup**

Newport, R. I., March 14 (AP)—Robert D. Hayes, 19, of this city, arrested for New York police, con-

fessed today to participation in two holdups in New York, in one of which an unidentified organ was killed. The other a grocery store proprietor was shot and beaten, though not fatally.

DUSTED CHIEF MAY WIN HIS JOB BACK

Reinstatement of Police Chief John Armstrong of Plymouth is believed likely as a result of the report of Charles J. Winkler, Jr., auditor appointed to hear the facts in the case, who found that threats of resentment and hostility on the part of one selectman led to the chief's removal.

A single Supreme Court judge will decide upon the question of reinstatement. Winkler's report was in the hands of the court today.

The auditor found that George J. Anderson, selectman, who cast the deciding vote in the meeting of Armstrong, was motivated by a spirit of hostility.

Concerning the morale of the police department, to which reference had been made, the auditor says in his report, "I refer to this testimony, because I find that some members of the board of selectmen discussed matters with members of the police force on the streets of the town, which, of course, is not conducive to a well disciplined police force, and which, in my opinion, raises the question as to whom the responsibility for the unsatisfactory conditions that existed in the police department should be placed."

In Old Boston—No. 206

THE Blue Ball hung by Josiah Franklin, father of Benjamin, at Hanover and Union sts. as a sign of his business as a tallow candler. The site is now covered by the pavement of Union st. due to the widening of the street. More pictures of Old Boston will be published by the Boston Evening American.

HOUSE KILLS 2 BANK BILLS AS 'DANGEROUS'

Two bills, one giving banks the option of refusing payment of a check or other demand instrument presented one year after date, and the other fixing limitations on revocations, countermands of payments and stop-payment orders relating to the payments of checks or drafts against bank accounts, were killed today in the House.

Such measures were denounced as dangerous by Rep. Ignatius J. O'Connor of Boston, member of the committee on banks and banking.

A check, he contended, should be honored so long as there are funds in the bank to pay it.

Rep. Indore Fox of Boston favored giving the banks the option of refusing to pay a check over a year old as a protection for every-one concerned, but he opposed the limitations measure on the ground that unless a depositor notifies the bank every six months not to pay a check he loses his money.

ENGLAND PLANS FREEDOM FOR DOMINIONS

London, March 14 (AP)—The freedom of completely independent states would be granted to the dominions of the British empire under the recommendations made in a report of the committee of legal experts which will be presented to the imperial conference in October.

The interpretation of laws and regulations governing the legislation of dominion Parliaments agreed to by the special committee would remove all restrictions by the British Parliament as now imposed by law.

The dominions would be perfect political entities "united only by a common allegiance to the crown, and freely associated as members of the British Commonwealth of nations."

In addition to proposing the abolition of the King's right of veto on any law passed by a dominion legislature, the committee recommended that "no law hereafter made by the Parliament of the

New Haven Railroad Head Backs Mayor in Hub Program

"I didn't think railroad presidents got up so early," remarked Mayor James M. Curley after John Kelly, president of the New Haven railroad, had left his office following a brief visit.

President Kelly called to give his personal endorsement to the mayor's program to restore commercial and industrial prosperity to the city.

The rail head chatted with the mayor for more than an hour.

United Kingdom shall extend to any dominion otherwise than at the request and with the consent of that dominion.

2436 Get Jobs in Connecticut in Month

Hartford, Conn., March 14 (INS)—The State Bureau of Labor today reported a slight increase in jobs available for workers here during the month ended March 1. Of 4379 applicants for employment places were found 2436 or 55.6 per cent, as compared with 54.2 per cent in the previous month.

Work for women was far more plentiful than work for men.

HUSTON SAYS HE LOBBIED WHILE G. O. P. HEAD

Washington, March 14 (INS)—Documentary evidence that Claudius M. Huston, chairman of the Republican National Committee, continued his lobby activities in connection with Muscle Shoals after his selection by President Hoover as chairman, was produced by the Senate lobby committee today.

Senator Black (D., Alabama), the committee's special counsel in the Muscle Shoals lobby, showed Huston a telegram—one of a score subpoenaed today from the telegraph companies—which the Republican chairman admitted he had received.

Huston's memory was hazy about plans that might be "blown up," as mentioned in the telegram. He said he had "not been available" when C. W. Ashcroft, member of the Alabama Legislature, mentioned in the

telegram, tried to see him in New York. But admitted Ashcroft later had a conference with him at Republican national headquarters here. The "plans," he testified, were in connection with Muscle Shoals.

THINK OF YOUR AUTOMOBILE IN TERMS OF TOMORROW

*Ultimate cost is as important
as first cost in the purchase
of an automobile*

WHEN you purchase an automobile you are making an investment of a considerable amount of money. It is essential, therefore, that you give careful thought to the best selection and know what you are getting for your automobile dollars.

The first cost is important because it may mean an immediate, satisfactory saving. Of equal importance is the ultimate cost after thousands of miles of service. This ultimate cost is the true measure of automobile value.

THE first cost of the new Ford is unusually low not only because of economies in manufacturing, but because the same principles that inspire these savings are extended to every other step that means greater service to the public. It is easy to see that economies in production would be of little value if they were sacrificed later through high charges for distribution, selling, financing and accessories.

The Ford dealer, therefore, does business on the same low-profit margin as the Ford Motor Company. His discount or commission is twenty-five to fifty per cent lower than that of any other automobile dealer. You gain because he makes a small profit on many sales instead of a large profit on fewer sales.

The difference in selling cost, combined with the low charges for financing and accessories, amounts to at least \$50 to \$75 on each car. This is as important as economies in production in keeping down the price you pay for the new Ford.

THE low ultimate cost of the new Ford is the result of sound design, quality of material and unusual care in manufacturing. Friction and wear are reduced by the accuracy with which each part is made and assembled.

These factors combine to decrease the cost of operation and add months and years to the useful life of the car. The good performance and low yearly depreciation of the new Ford are indicative of the enduring quality built into it at the factory.

SERVICE charges are on the same fair, economical basis as the making and selling of the car and replacement parts are always available at low prices through all Ford dealers. In two, three or five years, depending on how much you drive, the saving in operating and maintaining a new Ford will amount to even more than the saving on the first cost.

Think in terms of tomorrow, therefore, when you purchase an automobile. For tomorrow will reveal its true worth.

SOVIET TO STOP PERSECUTION AND COERCION

Moscow, March 14 (AP)—Such acts as closing churches without consent of a majority of the population, tearing down church bells, use of force, violence or harsh administrative measures in converting individual farms into collective farms and illegal confiscation of the peasants' property must forthwith cease, says a highly important editorial in today's *Izvestia*, which reflects the views of the Government.

Measures of persuasion rather than duress, *Izvestia* says, must be used in getting peasants to join the collective farms. Any official who henceforth departs from this policy will be severely punished.

"Doubtless," continues the paper, "our enemies will raise a terrible shout of joy over this alleged retreat from our policy of collectivization."

"The laboring masses know that retreat would mean surrender to the enemy of our positions which we have gained. No only will we not surrender our positions, but we intend to fortify ourselves by the mobilization of all our power, attention and means into one vast collective effort."

Bomb Wrecks Home of Political Leader

Chicago, March 14 (AP)—The home of William Evans, president of the suburban village of Broadview, was bombed early today for the second time in less than two months. The bomb placed at the head of the steps leading to the front porch, wrecked the porch and broke every window in the two-story house. Evans was in bed and was not injured.

Evans said he had received no warnings before either of the attacks and knew of no reasons for them.

THREAT LETTERS ARE SET BY HUB LEADERS IN "RUM CIVIL WAR"

ONE WRITER WILL SPEND \$500 FUND

Rev. A. A. Forshee Declares Fight Will Go On Despite the Hostile Missives

Two threatening letters against those who organized the Park Street Church drive of 1000 men today were made public by Rev. A. A. Forshee of Boston, Baptist minister.

Both of the letters were unsigned, Rev. Forshee said. One writer announced an intention of spending \$500 to "take up your apostasy against the war."

Mr. Forshee, who organized the recent rally where a "rum civil war" is being fought, was wounded by the letters. "I do not think these letters really represent the war," he declared the day before.

One letter referred to the "rum war" fight of the recent meeting and said:

"I'll fight you in this war. Look out, for your enemies are men."

The other letter said in part: "I intend to pay \$500 to fight you in the open and close up your agitation against the war."

Speaking for himself and friends, the church organizer concluded:

"Let them fill the mail bags with threatening letters. The fight is on. We will fight these enemies of the Constitution of the United States until we have them scared out of their boots."

Women Club Hostesses

Members of Brookline Women's Club, Mrs. Newell L. Keith and Mrs. Ralph M. Kinney are hostesses, members of the hospital committee at the State Federation conference in Hotel Statler on youth and marriage problems. (Staff photo.)

1500 NAVY VARS RESUME AIR HOPS

Former Congressman Joseph A. Conroy, in an address at the dinner of the Expressmen's League, emphasized the need of constructive action to relieve the widespread unemployment situation and advocated increasing the labor force at Boston Navy Yard.

"Mr. Hoover, in his speech of acceptance, August 11, 1928, emphasized the necessity of keeping labor steadily employed," he remarked.

"One year later the nation suffered the worst financial panic that ever afflicted America."

"Our Massachusetts industrial promotion board, Friday, in its report advised us in relief of unemployment, Massachusetts can well succeed in Washington an issue like addition of 1500 men to the labor force at the Navy Yard."

Censor Bill Given Reading in House

The bill passed by the Senate, forbidding the book censorship law was today given its first reading in the House after an agreement had been reached to debate the measure next Tuesday.

On that day also the House will come to a vote on an adverse report made by the committee on organization of the bill of Representative Roland D. Swasey of New York to authorize bookcensors and character to maintain private list of books which may be sold to children or adults for school purposes.

Cold Blast Due to End by Tomorrow

With spring a week away, high winds and a cold blast from the northwest struck Boston today and were due to keep the temperature below freezing mark for some hours but tomorrow, "the wind" was expected to be warm.

"The wind was powerful even on city streets, and at exposed places like the Charles river plain, where the wind was not so much as in the city."

RULER'S 'DRY' STADIUM CHEERS DRAPE

Leaders See a Bitter Contest for the Senate Nomination; Democratic Victory Forecast

A widely fought for the Republican nomination for U. S. senator was seen today with the entrance into the field of William Butler as a June day.

Butler in his announcement said he would neither will nor straddle the question, but would stand with President Hoover and Governor Allen.

He said he believed there were more reasons for retaining than repealing the 18th amendment.

John D. Draper of Hopedale, whose candidacy was announced some months ago and who was a candidate two years ago on a platform calling for modification of the Volstead act, said his position had not changed.

Am in the contest to win," he said today. "My position is exactly the same as before. It hasn't changed in the slightest."

POINTS TO ANTI GAINS

He refused to comment on Butler's dry stand, but it was learned his friends are exercised over persistent rumors that he would withdraw in the interest of party harmony.

"These rumors point out that Gov. Allen, as head of the Republican ticket, is also a dry," Butler is said to be confident of obtaining the nomination, and it is known that for two years an organization has been working for his being built for the purpose.

The other hand, in view of the anti-prohibition trend in Massachusetts, as demonstrated by the vote given Governor Stewart and the recent victory of William J. Granfield in the congressional nomination, certain prominent Republicans are pessimistic.

It is known that Butler believes the defeat inflicted on him by Senator Walsh cannot be repeated as Walsh will not be in the coming fight. No one else, he feels, has Walsh's vote-getting ability.

SEEN DEMOCRATIC VICTORY

David B. Roy, secretary of the Constitutional Liberty League predicted that thousands of Republicans will have always voted the Republican ticket, will vote for a liberal Democrat this year.

C. W. Crocker, general counsel of the Liberal Club League, in a statement said in view of recent happenings it would seem almost impossible for Butler in with an aggressive anti-prohibitionist to have from our civilization the reforms and philanthropies, the hospitals, social settlements, the educational institutions and the transformations a human character, inspired and perpetuated by prayerful men and women, and you take away that which would turn history into a grim, poverty-stricken reality.

B. U. Students to Sing

The 45 members of the Men's Glee Club of Boston University will sing at the First Methodist Episcopal Church, Sunday evening, 7:30.

Mullen to Speak at "Irish Night"

The Ward 8 Republican Club will hold its 29th annual Irish night Monday evening, March 17, at the municipal building, Boston.

Daniel J. Gillen, president of the club, announced by several committees, has arranged an elaborate program, and the chief speaker will be Thomas J. Mullen, recently appointed representative on the industrial board of the Chamber of Commerce by Mayor Curley.

The mayor has been invited to attend.

Presents Sketch to Titled Visitor

Lady Flower, Mayor Curley, Sir Archibald Flower

Mayor Curley presented this etching of the Old State House to Lady Flower when she called at City Hall with her husband, Sir Archibald Flower, mayor of Strathfield-Avon, birthplace of William Shakespeare. Lady Flower informed Boston's mayor she was of Irish parentage. She and Sir Archibald are guests of friends while visiting in Boston. (Staff photo.)

TELLS OF POWER OF PRAYER

The results of prayer are not intangible, Rev. John S. Lowe, D. D. minister of the Church of the Redemption, said today in his sermon at Tremont Temple under the auspices of the Greater Boston Federation of Churches.

"The impulse to pray is at times at any time, intensely real," he said. "The results of prayer in human affairs are as concrete and definite as a granite monument. It moves from our civilization the reforms and philanthropies, the hospitals, social settlements, the educational institutions and the transformations a human character, inspired and perpetuated by prayerful men and women, and you take away that which would turn history into a grim, poverty-stricken reality."

The fire started in the basement and worked up into the first floor.

New Englanders to Land at New Port

A party of New England Finliss-Americans will have the distinction of being the first lot of passengers that will land direct at the new port of Helsinki, Finland, when they reach there next June on the Concord liner, Lancashire. The Lancashire will sail from here May 28.

TECH STUDENT IN COLLAPSE

Michael George Eakin, a student of chemistry at Massachusetts Institute of Technology, collapsed in the business section of Hartford, Ct., today and was removed to a hospital for observation.

Doctors said Eakin probably would be able to leave the hospital in ten days. They explained that he had been making his home at 14 Clinton st., Cambridge. Recently he has been studying hard in his honors course.

B. U. Pianist Will Give Novel Concert

Raymond Havens, since 1928 head of the pianoforte department of Boston University's college of music, has announced a premier Boston playing of the Two Hebrew Chorales from Castelnuovo-Tedesco, for his Sunday afternoon concert at 3:30 in the Repertory Theater.

Some of his other offerings will include Variations Serenades, from Mendelssohn; Revolutionary Etude, from Chopin and "Paganini" by Bax, which is credited also with never having been presented before to a local audience.

BRONZE TABLET EVACUATION FEATURE

Is to Be Placed on State St. With an Address by Thomas H. Dowd

Telling in bronze how the British evacuated Boston on March 17, 1776, from the head of Long wharf a new tablet has been prepared by the city of Boston and will be placed next Monday at 148 State St. This tablet will be an additional feature of Evacuation Day ceremonies with an address by Thomas H. Dowd.

Under east of about 20 British addresses in marching formation, the words on the tablet read:

"The head of the head of Long Wharf built by the citizens of Boston from which the British evacuated on the evacuation of Boston, 17th March, 1776—placed by the city of Boston, 1930."

All State at business hours are observing in strange suitable decorations and patriotic features under the direction of William J. Chamberlain, assistant vice-president of the State St. Trust Co. The ceremony will be held at 1:30 p. m., following a parade from Fenway st.

Learn the Power of Atomized Flaxolyn to Promote Health

Discover Why Thousands Here Report Such Wonderful Improvements in Health, Many After Suffering for Years from Constipation, Stomach Distress Gas, Nervousness, Liver Torpidity, Sleeplessness, Sick Headaches, Rheumatic Pains, Dizzy Spells

"Flaxolyn Feeds, New Strength To Stomach and Nerves; Activates the Precious Bile Secretions of Torpid Liver; Clears Intestines of Toxic Poisons," Says Phila. Doctor.

If you are worn, tired, flat, pale, easily exhausted, or feel lacking in ambition and thinking power and want that energy and "pep" which wins business and social success, you should try the Flaxolyn formula at once.

Flaxolyn has been publicly recommended by more doctors than any other preparation in the history of American pharmacy. Dr. Henry Karl Mett of Philadelphia says: "I am glad to recommend Flaxolyn because of its wonderful laxative effect. It is a splendid tonic, laxative, and I have used it myself and find that it has a remarkable cleansing effect, that it helps to improve the body-line and never one felt much more invigorated and cheerful."

"Flaxolyn Positively a God-Send," Says User

Dr. Carl Labhart of Philadelphia says: "Flaxolyn is a new, better, more effective, and more reliable kind of 'saccharated' health builders but never helped me so well."

"I have been taking Flaxolyn and I now feel as strong as a new man. I now have a new appetite and I work in a transportation company and am never bounding Flaxolyn."

Flaxolyn contains vitamins. Every essential amount of Flaxolyn contains vitamins, vitamins of remarkable value. It contains vitamins A, B, C, D, E, F, G, H, I, J, K, L, M, N, O, P, Q, R, S, T, U, V, W, X, Y, Z, and all the other vitamins.

Hull Youth Makes Hit With Braves Manager

SCHOOLBOYS AFTER SUMMER PITCHES

Dempsey Back Money Lures Him Still Big Card

JACK DEMPSEY is getting ready to come back; the great old champ is itching to take one more shot. He has heard the call of the millions. He needs the loose money. Jack knows that he can walk in and attract one of those gates any old time. He leads an ultra-expensive existence, and the jack would help.

Dempsey hasn't fought since '27, when he flattened Tunney and was tricked out of the title he sought to regain. The years have made him forget a few things. He doesn't remember his own shaky condition after the Tunney row. He wasn't himself for a couple of months. He wasn't so good, either, for a few weeks after the Sharkey fight.

Jack had been but so frequently and viciously hit that he seems to be reaching the stage known as punch drunk. His face, around the eyes particularly, was nearly split. He definitely determined to quit back there in '27.

But time has afforded unhappy memories, and veterans owe the urge to get in there to prove they are just as good as they used to be. A real fighter, and Dempsey was every bit of that, never is liked in his own heart. Three added years will find a still slower Dempsey. The box office will be stuffed with dough, though, and Jack figures that will make up for a lot of cuts and bumps and bruises.

DEMPSEY will not fight Canera, though. That would draw, but he knows that a sure crack would be more lucrative. If he should win, and there's always a chance for him, he would retire as champion. And he happily the rest of his life.

BOTTLES should be kept on ice, of course, but not on hockey rinks; the college boys should know that. Jacks like Harvard hockey would join football on the profit side of the ledger—they will call Pennell Canera the auctioneer soon; he knocks them down as fast—won't where Philip Scott is auctioning these days—Leo Philmore, Philmore is beginning to beat out Dempsey, he will manage again—the inviolable law on the "ice" ringside says at the "buz" fight, always is paid by the poor bird who gives them away, nothing is more monotonous than the saving practice of big league ball clubs, after the first week, a good sporting partner for heavyweights comes close to having a steady job than anybody in the fight racket—scools, bike riders do more world touring than any other athlete.

JOHN MCGRAW'S ball club, which figures to be a first contender, is the most dangerous outfit in the South. The discord up above seems to have dropped down into the ranks.

AL HART proffers the info that the 1929 Marathons will have the biggest and classiest field of any of them—but we still think Marathon should be barred by the League of Nations, or somebody—Doc Loney says he could have a dozen teams in his Two League this summer; but he doesn't want that money. George Hunt claims that Braves Field is so dressed up now, it feels dangerous to wear a hat away during office hours—the Braves special passes this year are Indian head medallions; the owners will look like track meet winners—the opening of Arthur's Gym on Cambridge was something to cable home about; if this keeps up, we'll all turn athletic—Paul Bowser thinks the Mediterranean fruit fly must have attacked the new crop of marathons—Yarup is all but up about the way Canera's league; then dead over here; boys or there claim promoters are thing a travesty of the sport; if that hadn't been done, it was all right.

THE Bruins would better forget their habit of losing in the playoffs, or what a lot of chatter they will be.

IF you know that runner peaks that winter's great, 20-year-olds. Bogum, and "hichone, have not wintered well; that Binner McCoy has trouble with his eyes, after each wintering bout; that Ty Cobb still wants to get back into organized ball—that Able South isn't pulled up, even if he has gained 15 pounds—that basketball has had the most successful year in history out through the West; that he picked up a lot in the East—these home racing in Florida, except in Miami, is a terrible bait that open tennis tournaments are quite popular in the South; that posed pictures of college ball players should be prohibited.

COACH FITZGERALD MEETS LATIN SCHOOL HOPEFULS

CHARLEY FITZGERALD and his Boston Latin diamond candidates are off to an early start and expect to go a long way in scholastic baseball this coming spring. Below is Carl Lichenstein, left-handed flinger, on whose shoulders much of Latin's success will depend. The Purple has some good prospects which Coach Fitz is due to mould into a fast diamond outfit.

Frank Holland to Compete in 100-Yd. Event

Frank Holland of Dedham high is also expected to appear in the 100-yard and 200-yard freestyle. Gordon Connolly of Methuen will enter two other events, 100-yards freestyle and 100-yards breast stroke.

Fast Field Entered in 200-Yard Free-Style

There should be plenty of splash when Frank Holland of Dedham, Thomas O'Brien of Chelmsford, Bernard Kurkila, Gardner, Matthew Carroll of Worcester, North High and William Hyland of Brookline dive off and cut away in the 200 yards freestyle race. All are very clumsy swimmers and the race should be interesting to look at.

GOOD GOLF

By CHESTER HORTON

JOHN'S Greatest Teacher. If you could look at any one's golfing career all at once, that is, in one year, the practice, the thinking and the instinctive, it would be a most interesting study. It would be a most interesting study, in fact, to see how a man's golfing career develops. It would be a most interesting study, in fact, to see how a man's golfing career develops. It would be a most interesting study, in fact, to see how a man's golfing career develops.

THE Bruins would better forget their habit of losing in the playoffs, or what a lot of chatter they will be. IF you know that runner peaks that winter's great, 20-year-olds. Bogum, and "hichone, have not wintered well; that Binner McCoy has trouble with his eyes, after each wintering bout; that Ty Cobb still wants to get back into organized ball—that Able South isn't pulled up, even if he has gained 15 pounds—that basketball has had the most successful year in history out through the West; that he picked up a lot in the East—these home racing in Florida, except in Miami, is a terrible bait that open tennis tournaments are quite popular in the South; that posed pictures of college ball players should be prohibited.

EASTER HERO WORKS OUT

Wentworth, Eng., March 12 (AP)—Easter Hero, J. H. Whitman's steeplechaser, which was reported lame yesterday, was out for exercise at his home training grounds today. His trainer, J. Anthony, said that he walked quite soundly.

Easter Hero will undergo further examination by a veterinary surgeon later today.

Portland Club to Remain in League

Portland, Me., March 11—Portland owners of the New England League franchise have announced in the league, regardless of action by George H. Hunt and Charles Ault, who announced they would surrender the Lewiston-Burns franchise. Pres. Fred L. Johnson and the local team will be continued and he believes some one will take over the team early in the season before the season opens.

"SO, MY PROUD BEAUTY, YOU WOULD REPULSE ME, EH?" barked DALTON

"I would indeed," said the fairest flower of the countryside. "And how!"

"What is there about me, gal, to bring this disfavor down upon my head?" he demanded.

"Your voice, sir," she answered him haughtily. "The man who wins my heart must smoke OLD GOLDS in kindness to his throat—and to his listeners."

LETTERS FROM OUR READERS

Soldier Condemns

Liquor War Cry

Editor Boston American:

It makes me laugh when I read about 1000 young men willing to take up arms against their own countrymen in order to bring about prohibition. It is not the law in the United States that can enforce prohibition? Must we make war from the pulpit to decide whether we are for peace or war?

Those young fellows who shouted "yes" do not know of modern warfare, and should not be willing to fight people who do. We do not want a revolution in our country. Let them remember that our soldiers died in France not for prohibition but for democracy. War costs more damage and loss of life than anything I know of. Better let President Hoover and Congress attend to law matters.

ALFRED F. MAJOR
Former Private Co. F, 1914
Reg. 2nd Div.
Bridgford, Mo.

Personal Decides Usually Human

Editor Boston American:

After all is said and done, no two individuals are identically alike, and for this reason religion or worship of God must, therefore, mean something different to each human being. The conception of God surely is diverse, as we can see when we study God from the lips of Moses down to 1930. In Moses' day, Moses was regarded as a God, if not the supreme God, by many people, and down through the ages the mental image of God has been, perhaps very often, that of a man corresponding quite nearly to Moses, with a long white beard and wearing a flowing gown, and that picture has persisted because of fact. Moses was decidedly God-like.

In 1930, however, we surely cannot truly be labeled God-like, even though times have changed so greatly since the days of the Old Testament. Probably today, as always, each one of us has his or her God, but I feel that such time immemorial, God the One whom we worship, is like human being, a person we can really talk to, and a fish and blood deity.

DOLORE W. SAWYER
Brookline.

Fingerprints Never Fail to Identify

Editor Boston American:

Just to put in a word on fingerprints in support of the Francis Franks. Fingerprints are a positive means of identification. There is no possibility of two fingerprints being alike except the whole 10 fingers of one person corresponded with the whole 10 fingers of another person, of all the prints that have been taken, not two digits have been found to be exactly alike, so what chances are there of a whole set of 10 being like another set of 10. Think of the prevention of crime if the fingerprint system was universally adopted. No law-abiding citizen should be opposed to having his fingerprints taken no more than he should be opposed to giving his name and particulars at the time of the census. I would like to hear from readers who are opposed to a universal fingerprint system and their reasons.

T. S.

MacDowell Fund

Benefit Success

Editor Boston American:

I feel sure that the patronage of the MacDowell fund will be interested to know the successful result. Not only these particular people, but all over New England much interest was felt in the splendid effort. The women of New Hampshire had made in pay off the \$35,000 mortgage on the estate of the Edward MacDowell Association of Peterborough.

The fine article in this benefit possible gave fairly both time and talent, and it is a satisfaction to know that this was not in vain, for over \$4000 was netted. Not only did they give their services, but it was also difficult to make them accept money for their expenses, as was the case of the benefit given in New York at Carnegie Hall.

I would be most grateful if you would put a notice in your paper stating the above facts.

RICHARD EDWARD MACDOWELL,
Peterborough, N. H.

Says W. C. T. U. Is Not For Temperance

Editor Boston American:

I am rather surprised that the writer who answered the W. C.

T. U. critic should question the familiarity which he has on the work and achievements of said Union (U). It is generally known that the Union "worked" for and achieved its goal as regards prohibition. It is common knowledge that prohibition does not make for the best interest of the country. It is, however, for the best interest of certain classes.

The writer who answered "critic" wrote about a congested automobile, but did not say anything about congested cities because of prohibition. He believes that everyone opposed to prohibition entertains hallucinations about things. "Yes he does not speak about the rights and personal liberties as guaranteed in the Bill of Rights."

Challenge him in as, with official sanction, that the W. C. T. U. is not for light wine and

beer, which is a step towards temperance.
O. Temperance, who many crimes are committed in the name of.
FRED MANDILE.
Mattapan.

Prohibition War

Editor Boston American:

Some of the "wet" proponents are like the lady who said, "I don't know how it happens, but I meet with nobody but myself that is always in the right." These "wets" think it dreadful that a certain speaker at a "dry" meeting held in Park St. Church recently should ask the question of his audience "Are you willing to go to war in enforcing prohibition?" And no doubt they were much more shocked at the proposition than any of the audience which was "Yes."

These "wets" who expressed their disapproval of the question

and answer, no doubt, personally feel as they speak. And they are greatly perturbed because there are many, many people who do believe in the Constitution of the United States and that the Constitution is worth fighting for. We had "conscientious objectors" in the last war and no doubt will have them in future wars.

Any patriotic member of these United States should answer unhesitatingly, "Yes, I do go to war to support the Constitution of the United States."

Article 6 of the Constitution says that "This Constitution and the laws of the United States which shall be made in pursuance thereof, shall be the supreme law of the land."

There is nothing dreadful about supporting the eighteenth amendment, which is part of the Constitution. J. C. LYNCH.

CONVERTS WON BY GANDHI

Nawagun, India, March 14 (AP)

Mahatma Gandhi, Indian nationalist leader, left here at dawn today with his 79 devotees for their third day's march toward Jalapur as inauguration of the movement for Indian independence. They arrived shortly at Varna and intended to proceed to Matar, where they will halt for the night.

In an address before the villagers at Nawagun, Gandhi congratulated the eight head men who resigned as protest against Vallabhbhai Patel's imprisonment. He exhorted them to manufacture and to wear homegrown cloth and to volunteer as civil resistance workers.

The "village" vowed in Gandhi's presence not to fill the vacancies.

MARY WILKINS FREEMAN DEAD

Metuchen, N. J., March 14 (AP)

Mary Wilkins Freeman, 64, author, born in 1862, died here today. Her first novel was published in 1887. Since then she had written about 25 books, exclusive of many short stories and magazine articles. Some of her books, popular a decade ago, are: "The Heart Highway," "Six Trees" and "Eater's Pride."

She married Dr. Charles Freeman, author, in 1902. He died in 1922, leaving his estate, valued at \$212,000, to Harry McKim, his chauffeur, in whose home above the family garage Dr. Freeman resided after an estrangement from his wife and sister.

A car was a house. Have you a garage for rent? You almost find one in the West End Ave. That's the way to go.

"In a Kitchenette" Morgan Broadcast

The popular melody, "In a Kitchenette," from the "Gold-Diggers of Broadway," will be used in the first of a series of broadcasts sponsored by the Morgan Furniture Co., at 8:30 tomorrow morning, through Station WJAC. Charles R. Hector and the 22 "Morgan Fur-

nishers" will play popular dances, tunes and ballads. Subsequent broadcasts will be heard at 9:30 Monday, Wednesday and Saturday of next week.

HOW A GREAT BANK keeps its personal touch

"How is it possible," you ask, "for the tellers in your Head Office, serving thousands of customers, to know so many by name?"

The answer is that our commercial customers are divided into seven alphabetical groups, each served by its own tellers and counter windows. Our customers tell us that this system offers them all the advantages of the intimacy of a small bank, with no tedious waiting in line.

The officers of this bank, too, are easily accessible to any customer who desires their advice. Their collective experience covers every field of modern business.

Many of our depositors have formed the

habit of dropping in occasionally to renew and maintain the acquaintance which they find so valuable in their banking connections. This personal contact is of equal value to us. By knowing them better, we can serve them better, and the interchange of ideas and news is of mutual advantage.

We invite you to open a checking account. The facilities you will gain as a customer of New England's largest bank are set forth in our booklet, "Services Offered by The First National Bank of Boston." You may obtain a copy at any of our offices or by mail upon request.

BAN 33 CO-EDS FOR SMOKING

Lebanon, Pa., March 14 (AP)—Thirty-three women students at Bucknell University have had their social privileges revoked by the women's student government for smoking in their rooms.

The ban is for six weeks and will be lifted if the women do not smoke during that time.

The Senate leaders indicated that the ban would be doubled and said: "The action was that of the student government association alone and we do not intend to move."

Medical Center's Fund Now \$704,464

The New England Medical Center fund reached \$704,464 today, with \$100,000 reported for the week, now Habimah troupe, known in America for their memorable work in the Dybuk in New York and Chicago, will be given Sunday evening at the Statler Hotel ballroom.

Prof. Nathan Isaacs of Harvard University, chairman of the sponsoring committee, will open the program with an address.

Vardi and Yoalit to Give recital

A dramatic recital by David Vardi and Eka Yoalit of the Moskow Habimah troupe, known in America for their memorable work in the Dybuk in New York and Chicago, will be given Sunday evening at the Statler Hotel ballroom.

Prof. Nathan Isaacs of Harvard University, chairman of the sponsoring committee, will open the program with an address.

240 M. P. H. Is Goal of English Racer

Daytona Beach, Fla., March 14—Four miles a minute—20 miles an hour—is the goal Kays Don, British racer, hopes to attain when he sends his powerful 24-cylinder, Silver Bullet roaring over the Ocean Speedway soon in an effort to shatter the world's automobile speed record.

He expressed that opinion, shortly after mechanics pronounced his four, stream-lined machine ready for a series of preliminary tests to test out the performance of the car.

\$25,000,000

Missouri Pacific Railroad Company

First and Refunding Mortgage 5% Gold Bonds, Series "H"

Due April 1, 1930.

Coupon Bonds, dated April 1, 1930, in denomination of \$1,000 negotiable as to principal, exchangeable for fully registered bonds and re-exchangeable under conditions provided in the mortgage. Interest payable April 1 and October 1.

GUARANTY TRUST COMPANY OF NEW YORK, Trustee

The bonds of this series will be redeemable at the option of the Company, as a whole or in part, upon ninety days' previous notice, on any interest date or after April 1, 1935, and on or before April 1, 1937, at 105% and accrued interest, and thereafter at their principal amount and accrued interest plus a premium of 5/8% for each six months between the redemption date and the date of maturity.

The issuance and sale of these Bonds are subject to the approval of the Interstate Commerce Commission.

For further information regarding the Company and this issue of Bonds, reference is made to a letter dated March 11, 1930, from William H. Williams, Gen. S. Treasurer of the Missouri Pacific Railroad Company, copies of which may be obtained from the undersigned, and from which the following is quoted:

"The purpose of this issue is to reimburse the treasury of the Company for capital expenditures previously made, to provide for the Company's improvement program for 1930, including the purchase of equipment, and for other corporate purposes.

The First and Refunding Mortgage Bonds are secured by a first lien on 4,140 miles of railroad of the Company together with valuable terminal properties, depots and bridges, and, subject to \$95,563,500 principal amount of prior liens on various parts of the system, for the retirement of which First and Refunding Mortgage Bonds are retired, on the remaining 2,647 miles of the directly owned lines of the Company and the appurtenant facilities, a total of 6,787 miles of railroad. They are in addition secured by a first lien on \$23,150,000 par value of preferred stock of the Texas and Pacific Railway Company on which dividends at the rate of 5% per annum are now being paid, and subject to certain of said prior lien and in respect to part of the equipment subject also to outstanding equipment trust certificates, by lien on all equipment owned by the Company, which, on January 31, 1930, had a depreciated book value of \$78,802,427 over outstanding equipment trust certificates.

After giving effect to this financing, there will be outstanding in the hands of the public \$24,603,500 principal amount of First and Refunding Mortgage 5% Bonds, being at the rate of \$9,553 per mile on the 4,140 miles of railroad on which the bonds are a first lien. The aggregate of the prior liens and the First and Refunding Mortgage Bonds outstanding will be \$258,404,000 principal amount, or at the rate of \$38.02 per mile on the 6,787 miles of railroad subject to the mortgage, without making any allowance for the other valuable property on which they are a lien. The prior liens may not be increased or extended.

Following the First and Refunding Mortgage Bonds the Company has outstanding \$1,350,000 principal amount of General Mortgage 4% Bonds, due March 1, 1937, \$46,920,000 principal amount of Twenty-year 5% Convertible Gold Bonds, due May 1, 1940, \$71,800,000 par value of Preferred Stock and \$82,839,500 par value of Common Stock, having a total present market value of approximately \$271,000,000.

In addition to its directly owned lines the Company owns over 92% of the stock of New Orleans, Texas & Mexico

Railway Company, of which \$13,150,000 is pledged to secure

the principal amount of the Company's 5% Second

Serial Gold Bonds, and over 72% of the stock of the Texas

and Pacific Railway Company. New Orleans, Texas & Mexico

Railway Company in turn owns all the stock of International

Great Northern Railroad Company, including these

companies and their subsidiaries, the system operated by the Company aggregates 12,744 miles and extends from St. Louis on the East to Kansas City, Omaha and Pueblo on the West to Memphis, New Orleans, Fort Worth, Dallas, Houston, Galveston, San Antonio, El Paso, Rio Grande Valley and the Mexican border on the South and West. The Company also owns an undivided one-half interest in the common stock of the Denver and Rio Grande Western Railroad Company.

The gross income of the Missouri Pacific Railroad Company for the year ended December 31, 1929, applicable to the payment of interest on funded debt and to the approval of the Federal income taxes, amounted to \$31,533,690, while such charges amounted to \$17,965,860.

Application will be made in due course to list these bonds on the New York Stock Exchange."

THE UNDERSIGNED WILL RECEIVE SUBSCRIPTIONS FOR THE ABOVE BONDS, SUBJECT TO ALLOTMENT, AT 100% AND ACCRUED INTEREST TO DATE OF DELIVERY.

The undersigned reserve the right to close the subscription at any time without notice, to reject any application, to allot a smaller amount than applied for and to make allotments in their uncontrolled discretion.

The above bonds are offered if, when and as issued and received by the undersigned and subject to the approval by the Interstate Commerce Commission of the issuance of the bonds and subject to their consent of all legal proceedings in connection therewith. Temporary bonds or interim receipts of the Company will be delivered against payment in New York funds for bonds allotted, which temporary bonds or interim receipts will be exchangeable for definitive bonds when prepared.

Kuhn, Loeb & Co.

New York, March 14, 1930.

This offering is confined to brokers registered under the Massachusetts Sale of Securities Act.

News Reports Herald Early Return of Prosperity!

READERS of The Boston American will have noted the appearance on our first page of a "box" calling special attention to such items in the news of the day as herald the return of prosperity.

These reports, piling one on top of another as the week has advanced, seem to say that the temporary recession in business is nearing its end—and to say so as plainly as the First Robin says Spring will be along in a day or two.

As is right and proper, our "Good News of Good Times" is general in character and covers the country as a whole. Today, on this page, we wish to speak of New England, calling attention to certain reasons why, of all sections, this should be the MOST sanguine.

IN the first place, this is the year we celebrate the 300th anniversary of the Massachusetts Bay Colony and the establishment of Boston.

Observances in scores of towns will bring hundreds of thousands—some say millions—of tourists. A great number of these strangers will also visit Maine, New Hampshire, Vermont and Rhode Island. Their coming will boost the business of the railroads, steamship lines, hotels, department stores and places of amusement.

The Tercentenary celebration, beginning in June and continuing until October, will be followed by the National Convention of the American Legion; and that by the convention of the American Federation of Labor.

An increase of such volume in the number of our Summer business, together with the extension

of the season far beyond Labor Day, will call for larger staffs of employees at shore, mountain and lake resorts. Unless ALL signs fail, the year 1930 will be long remembered as one of the most profitable in the history of Vacation Land.

A DISPATCH from Washington reports that our fishing ports—Boston, Gloucester, Portland—have completed THEIR best year.

New England fishermen brought to these ports 327,096,327 pounds of fish, valued at \$13,051,704!

The figures represent an increase of 18 per cent in volume, and 20 per cent in value, over the landings of 1928.

That year was better than 1927, as 1927 was better than 1926.

ONE HUNDRED AND THIRTY THOUSAND NEW ENGLAND FISHERMEN AND THEIR FAMILIES HAVE EVERY REASON TO EXPECT THAT 1930 WILL SHOW FURTHER GROWTH, LARGER EARNINGS.

UNLESS one of the editors of the New England Homestead called attention to the fact, a day or two ago, who would have said that New England leads the country in farm ownership?

Mr. James Watson had other encouraging things to tell, among them these:

Of the farmers of NEW ENGLAND, 92 per cent OWN their farms.

New England ranks FIRST in the production of POTATOES.

IN DAIRY products, too, New England stands FIRST.

While the United States as a whole has been losing in livestock, New England has been increasing its herds. Five of the cattle industry's most important breed associations have headquarters here.

Concerning agriculture in our own State, these facts are contributed by Dr. Arthur W. Gilbert, Commissioner of Agriculture:

Farming is the SECOND LARGEST BUSINESS IN MASSACHUSETTS, topped only by cotton textiles.

There are more people employed on the farms of Massachusetts than in the woolen mills!

STEADY employment of 1000 New Englanders for one year is promised by a report from Washington that Boston's new Post Office Building, most important Federal structure in New England, is to be of all-granite construction.

It will be 21 stories high and cost \$6,750,000.

Original proposal was to face the lower three stories with granite, the remainder with limestone!

The Boston American was first to call for concerted action by all New England to the end that Congress might amend this plan of the experts and give consideration to our native granite, and the men of the granite industry.

The Bay State delegation in Washington rallied to the cause with unanimity. There has seldom been a better exhibition of team work.

The necessary amendment to the Deficiency Appropriation bill bears the names of Senator Walsh

and Representative Wigglesworth. The amended bill MAY meet with obstacles in the House, but its present position is one of high hopefulness.

IF these side-lights on the situation are not enough, consider the continued confidence in New England displayed by Sears, Roebuck & Company, who this week awarded to a Boston construction company contracts for additions to their mail order store at Audubon Road and Brookline Avenue.

The additions in question will consist of seven stories 220x120, and four stories 223 by 122 feet. Work will begin immediately. Premises will be ready for occupancy on August 1st.

GREAT public works about to be inaugurated through the initiative of Governor Allen and Mayor Curley—in co-operation with the President of the United States and in the neighboring commonwealths by Governors Gardner, Tobey, Weeks, Case and Trumbull, can be depended upon to take up a considerable part of our unemployment slack, which so far as New England is concerned is spotty rather than general.

President Hoover has stated HIS belief that conditions of trade and employment, will be normal in another six months.

If the President errs, it is on the side of conservatism.

In our opinion, the clouds are lifting already. Sunshine is indicated.

Share it with us, as its warm rays appear daily on Page 1 in "Good News of Good Times!"

Real New England Spirit

"We'll Rebuild at Once"

"With the ruins still smoldering, officials of the company announced that the work of reconstruction would start at once, and that no employee would be thrown out of work."

THERE'S no stopping an institution or a city that shows the spirit manifested by the Merrimack Chemical Co. in the above announcement taken from today's American.

Property is on the way—and the courage and confidence of such men as these are going to make its return to New England just that much more quick and sure.

Maine Missionaries

Fitting Out the "Potato Special," for a Journey Through the Southland

IN Maine the most progressive of these Six States or merely the most expert in the matter of publicity?

The questions occur on observing that our Down East brethren have landed on the front page again, with stories which relate that:

1.—Maine is about to put to work an army of 30,000 laborers and 2000 skilled workmen, on a campaign of highway betterment which will continue for four years. Of the \$12,000,000 which will be expended in 1930, no less than \$10,000,000 will go to "labor" and contribute to the general prosperity.

2.—On Thursday, March 27th, State of Maine newspapers describe the road building campaign, which will begin in six weeks as "in line with the plan of President Hoover for such activity in the way of public works as will offset any possible tendency toward business or industrial depression," but the truth appears to be that Maine HAS no unemployment "problem."

As for the Potato Special, traveling South by way of Washington, its mission is to spread the gospel of Aroostook's seed potato.

NINEY men will go along, potato experts from "down Presque Isle way," paying their own expenses and contributing their valuable time in order to promote the best interests of the State.

The special will consist of three Pullmans and a baggage car, of which the last will be most important. Here will be set up a display of Aroostook's famous product and a ton of literature telling WHY the Maine potato is best, describing the recreational facilities of the State and flouting the special appeal of Maine to the man who likes to fish.

All along the way, Chairman Stetson of the Development Commission will be prepared to discuss a most interesting question before Chambers of Commerce and other groups.

We have just received from Smith College the report of a slump in the potato diet. Not so long ago, it seems, Smith was using 4000 bushels yearly, this year the order will be for from \$300 to 3500 bushels. "Rice and macaroni," the dispatch says, "are at present more popular."

Will Governor Gardner have the Potato Special backed onto a siding, at Northampton? Clarence Stetson should speak to these young ladies.

WORDS OF THE WISE MEN

There ought to be a system of client, vanity is that of the modern nations in every nation which a world of George Moore, well-informed mind would be dispersed to relish. To make of our country, our country ought to be lovely.

—Burke

There is no wisdom like frankness.

—Disraeli

Excess of wealth is cause of covetousness.

—Mortley

"Tip-Toe Through the Tulips With Me!"

GLEANING from the windows of the Household of the Nation is the light on present conditions shed by the Congressional Investigation of the Dry Act and the Attempts to Enforce It.

It isn't a pretty picture, is it?

Bootleg Booze — HARD, HARMFUL LIQUOR, trips along jaily, dominating the scene. Look closely and see the flowers that bloom in his path.

The spectacle makes even the Man in the Moon frown and turn sour visaged on the scene.

H. G. Wells Writes on 'Science of Life'

In Collaboration With Prof. Julian Huxley and G. P. Wells

(Continued from Yesterday)

IN making this declaration we are denying a belief, formerly very prevalent, the belief that animal species, as they are now, came into being.

They are denying a belief, formerly very prevalent, the belief that animal species, as they are now, came into being.

They are denying a belief, formerly very prevalent, the belief that animal species, as they are now, came into being.

They are denying a belief, formerly very prevalent, the belief that animal species, as they are now, came into being.

They are denying a belief, formerly very prevalent, the belief that animal species, as they are now, came into being.

They are denying a belief, formerly very prevalent, the belief that animal species, as they are now, came into being.

They are denying a belief, formerly very prevalent, the belief that animal species, as they are now, came into being.

We are not discussing here the Theory of Natural Selection, or the Theory of Creative Evolution, or any theory at all of how evolution has been carried on.

First the facts and then the theory. The facts are that evolution has been carried on.

First the facts and then the theory. The facts are that evolution has been carried on.

First the facts and then the theory. The facts are that evolution has been carried on.

First the facts and then the theory. The facts are that evolution has been carried on.

First the facts and then the theory. The facts are that evolution has been carried on.

First the facts and then the theory. The facts are that evolution has been carried on.

the whole vision of evolution depicted as the general process of life.

First, then, all things living or once living, must fall into a branching plan. Everything in the past must be re-analyzed so as to be either ancestral to a living thing or else without descendants; they must be a renewal of the process, nothing in the past must be mainly derived from some later form.

Every animal, for example, is to be descended from a reptilian ancestor. Suppose in the early coal measures, before even a reptile existed, we found the skull of a horse or lion. Then the whole vision of Evolution would vanish.

A single human tooth in a coal seam would demolish the entire fabric of modern biology.

Next there must be an orderly sequence in fossil forms, so far as they are found. We must see very distinctly that time passes into form.

In the days of Darwin such sequence were hard to find. In those days there were probably not a hundredth part of the present multitude of fossils that are now collected and arranged.

The Californian pointed, tip-toe, to a speck and

fragmentary story, sustained by hypothesis, broken up by "missing links."

Darwin was challenged to show anywhere in the fossil record the steps by which one species has passed into another.

It was then quite a difficult challenge.

Today we have an answer, a score of answers, to that challenge, beyond Darwin's utmost hopes.

Then if animals have been specially created just as they are, in special conditions, it is reasonable to suppose they are perfectly and completely adjusted to those conditions.

There is no reason why any animal should fail to have any structure that might be helpful in its way of life, or possess any structure it has no need for.

If a cat lives on birds and a tiger on ground game, is there any reason why a cat should not have wings because a tiger has not?

What Do You Know?

Do you know:

- 1.—What is a reptile?
- 2.—What is the largest city of Pennsylvania?
- 3.—What painting of Raphael is accounted by many as the world's greatest masterpiece?
- 4.—What is a bacterium?
- 5.—What does the expression "more's the merrier" mean?
- 6.—In the Bible story, what was the name of the mother of Euseb and Jacob?
- 7.—What American poet is best known for his poem, "Sheridan's Ride"?
- 8.—What is the oldest city in U. S.?
- 9.—What does the expression "fortissimo" mean?
- 10.—Who wrote "Marmion"?
- 11.—Malviolet. Displeasure.
- 12.—Recess. Light straw color.
- 13.—Heavenly. Intermittent.
- 14.—Anger. Spurred.
- 15.—Flaxen. Celestial.
- Answers: Thursday: 1.—Yellow. 2.—Punishment. 3.—Four. 4.—Salvage. 5.—Before death. 6.—Village. 7.—Chrysanthemum. 8.—Cavalcade. 9.—Pier. 10.—Maraschino. 11.—Star Spangled Banner. 12.—Killing of a human being. 13.—Analogous. 14.—Carpet. 15.—Philadelphia. 16.—Gumbo.

New York Day by Day

By O. O. MCINTYRE

NEW YORK, March 14—Thoughts while strolling: "A drug store offers tins of imported caviar. Chauffeurs topped up like Russian moujiks. Dollars spot cleaners. At least 20 cafes in town named Peter's. A big new hotel with a built-in movie theater. Regina Wallace.

Will R. Johnstone, a Chicagoan, Ill. boy, who made good in the city. Ladies smiling through tight lips. Ed Hill, the reported dancing partner of a sandwich vendor with a black marble front. Not a bay window in mid town. Peggy Joyce and a pair of grifters.

Remo Bufano, a marionette man. The thick gloom in those upstairs dance academies. And loud jazz-shells in bourgeois suits at the door. Giving every passing girl a shivering, rousing glance. Pajamas with French lace collars. And a little snake bow ties from a push cart.

THE tobacco shop window decorator who is paid \$20,000 a year. Ten room sign: "Wanted—Colored customers." Moss and Fontaine, the dancers. The music-istic automaton. Sidewalk vendors of hot dogs. A street car with a dancing on a string. Shops that steal great French names.

Jerusalem brass and pottery. And Damascus jewelry. A cinderella. Round playing cards. And a reading glass with a tiny electric light.

Nursery room. Toy trap drummer's outfit. The store called The Three New Yorkers. The fun a country lake can have without shopping.

And reading restaurant names. Vic: Mr. and Mrs. Baxter, Col. Fishery. The Foodery. The Sully Kitchen. Louis Wiley of the Times. Beatrice Little steps to peer into a baby carriage. William Williams, the musical comedy tenor. And a Harvard man.

THE best natured policeman in New York. Also the most overbearing. The show any sign that cut off the Zig-zag's electrical display. The better rectus error on. Now in its sixth year. And paying \$50,000 a year rent.

Familiar night owl lunching in New Rochelle manufactures most of them to be shipped all over the country. Uptown New York has more than 300 and Greenwich Village and the lower tip of the island.

The lunch wagon in many sections has supplanted the old saloon as a rendezvous for neighborhood loafers. Each is filled after dinner with a tooth-picking in a metropolitan replica of the general store out yonder.

Why don't you rhapsodize more on the merits of the Silver Drive, "about the shimmery loveliness of the rippling Hudson?" Washington Irving put the exquisite charm a personified in literature. The Hudson is a scenic heaven.

It is also a well place to water miles.
